Thank you for restoring sight and changing lives

Dear Roy and Jennifer,

Thank you so much for your **25 years of loyal support** of The Fred Hollows Foundation and our work restoring sight to needlessly blind people.

Since 1994, you and the Jetmaster team have raised and donated more than **\$371,000** for our work. This represents up to **14,848 people** who have had their sight restored because of your support. You have not only restored sight, you have restored joy, dignity and independence - it's quite incredible!

Your support has changed the lives of people like Collins who spent days with his dad at work instead of attending school. The cataract in his eyes were finally removed thanks to support from people like you.

With his sight restored he has the chance to go to school, play with his friends and look forward to his future.

Fred would have been so proud to know you were supporting his dream to end avoidable blindness, he said:

“I believe the basic attribute of mankind is to look after each other.”
– Professor Fred Hollows

Restoring sight changes lives and it simply couldn't happen without you – thank you.

Warm regards,

Gabi Hollows AO
Founding Director

*Thank you for helping
Collins see again. He
has a bright future.*
