**M5 - 1PCS**

3. Secure handle to front door using 2 x bolt and 2 x nut. Nut goes to inside of door.

**M4\*12 - 2PCS**

**M4 - 2PCS**

4. Attach handle to pellet burn basket with 2 x bolt and 2 x nut. Nut goes to inside of basket.

**M4\*12 - 2PCS**

**M4 - 2PCS**

**WARNING:**

*For outside use only*

*Never leave pellet fire unattended when in operation*

*Ensure good clearance from the rear of the unit when in operation*

*Never use oven on a day of Total Fire Ban*

**Package also contains:**

1x Pizza Stone  
(Part # VA-3-01-009)

1x Pizza paddle  
(Part # VA-3-01-010)

1x Griddle plate, handle and  
drip tray

**OPTIONAL**

Pellet scoop  
(Part # VA-3-01-011)

## OPERATION INSTRUCTIONS

1. Once assembly has taken place per instructions, situate your VisionLINE pellet oven on a flat level surface in a ventilated area outside. (Note: non combustible surface recommended).

**CAUTION: CLEARANCE TO COMBUSTIBLES REQUIRED TO REAR OF APPLIANCE  
DO NOT POSITION WITHIN 500MM OF A COMBUSTIBLE WALL**

2. Load 2 1/2 cups of pellets into burn basket. Leave top line of holes free to ensure correct combustion.

**DO NOT OVERLOAD PELLETS. EXCESS FUEL WILL CAUSE OVERFIRE.  
INTENDED FOR USE WITH HARDWOOD OR SOFTWOOD PELLETS**  
Use of other fuel other than specified may cause damage to your appliance

MODERATE TO HEAVY SMOKE IS COMMON WHEN USING WOOD PELLETS, ESPECIALLY DURING THE LIGHTING AND RELOADING PROCESS. IT IS NORMAL FOR SMOKE STAINING ABOVE THE PELLET BASKET.

3. Place two fire lighters on top of the pellets and position basket half inside the unit. (natural non-chemical fire lighters recommended)
4. Use a match or gas lighter to light the fire lighters and insert the burn basket into position. Ensure the front door is closed during pre-heating
5. After approximately 15minutes, your pizza oven and stone should be hot and ready to cook.

It is normal during operation for the front door to flex slightly. Ensure when closing the door, the top edge clips into the retainer to secure it.

## COOKING

- Load new pellets as required to maintain oven temperature - 1/2 a cup or 1 scoop at a time. Typically add a scoop of pellets per 5-7 minutes.
- It is recommend check the pizza often as it can cook very quickly depending on oven temperature.
- Rotate regularly for even cooking with the pizza peel.
- Regulating the temperature of the oven is relative to the quantity of fuel loaded. Recommended temp range for cooking between 260°C and 340°C.

## CLEANING

Once finished cooking, remove left over solid fuel from the oven only after the fire has gone out and it has cooled. Always ensure oven is clean and free from oil or grease (internally and externally) to ensure longevity of the oven. Always keep oven dry and under cover to protect from weather and moisture when not in use. Use normal cleaning methods appropriate for stainless steel. Use a brush to remove carbon build-up from the roof and internal surfaces of the oven.

## HOW TO CLEAN PIZZA STONE STAINS

1. Remove pieces of food first by scraping them away with a spatula or brush.
2. Make a paste that consists of equal parts water and baking soda.
3. Scrub the paste on the stains.
4. Wipe with a damp cloth.
5. Allow the stone to completely dry.

*The Pizza stone is a porous material. Do not use soap or chemical cleaners on it as it will be absorbed and damage the stone permanently.*

## PRE-CAUTION

Always ensure hands are protected when placing or removing food from the oven  
Always ensure hands are protected when adding pellets to burn basket  
Always ensure oven is cool before touching or cleaning the internal areas  
Do not use flammable liquids for igniting and re-igniting  
Open flames and burning embers must never be left unattended  
After use, make sure the oven is allowed to cool before moving

## IMPORTANT NOTES

Do not use this oven indoors.  
Do not use this oven inside a tent, gazebo or within a confined space.  
This oven will become very hot during and for some time after use. Keep children away from the oven and do not touch metal parts of the oven when in use  
Use suitable gloves for protection, especially when loading the oven.  
We recommend protecting your oven when not in use with a cover to protect it from weather exposure

# WARRANTY

Thank you for purchasing one of our quality Visionline products.

YOUR PIZZA OVEN IS COVERED AGAINST DEFECTS FOR A PERIOD OF 12 MONTHS FOR PARTS AND LABOUR, REPAIR OR REPLACEMENT.

THIS WARRANTY EXCLUDES SURFACE RUST AND DAMAGE CAUSE BY ABUSE OR NEGLIGENCE.

## CONDITIONS OF THE WARRANTY

The appliance must be operated and maintained in accordance with the instructions supplied in the operating manual.

Any repair does not extend the warranty period.

Any parts other than original Visionline parts will void this warranty.

Any claim under this warranty must be made within 12 months of the date of purchase of the product. To make a claim under the warranty, please contact the store you purchased the pizza oven from or send an email to [warranty@jetmastervic.com.au](mailto:warranty@jetmastervic.com.au).

Warranty covers manufacturer defects in materials, workmanship and finish under normal use.

This warranty is provided in addition to other rights and remedies you may have under law: our goods come with guarantees which cannot be excluded under the Australian Consumer Law. You are entitled to replacement or refund for a major failure and to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

The warranty excludes damage resulting from product misuse or product neglect. The warranty covers domestic use only and does not apply to commercial applications.

## WHAT IS NOT COVERED IN THE WARRANTY

Removal or re-installation costs. This warranty does not cover costs for transit, nor in home service.

Damages as a result of transport/shipping.

Damages due to lack of maintenance, abuse (over-fire), neglect, misuse, accidental or improper installation of this appliances.

Scratches, dents, corrosion or discoloration caused by heat, smoke or abrasive chemicals cleaners.

Corrosions or damage caused by exposure to elements such as insects, weather, hail or grease and fat fires.

Damage to the pizza stone from being dropped or being poorly maintained.

Cleaning and wear and tear.

Commercial use of this product.

Unauthorized repairs or modification during warranty period.

Any claims under this warranty must be made within 12 months of the date of purchase of the product.

### Pizza Dough

300ml - lukewarm water

500gm - all purpose flour (lauke flour recommended)

10gm - yeast

10gm - maple syrup

10gm - salt

20ml - olive oil

### Method

1. Pre-heat a bowl (to hold the dough once mixed) using warm water and allow to sit whilst making dough.
2. Dissolve yeast and sugar into the lukewarm water and let sit.
3. Sift flour and salt together onto a clean prep bench and create a 'bowl' shape with it to hold the yeast solution.
4. Pour yeast solution into flour and add olive oil.
5. Mix well with a fork starting from the inside until combined and knead until dough is smooth and has a small amount of bounce.
6. Make dough into a ball shape.
7. Dry the pre-heated bowl from step one and lightly spray with olive oil.
8. Place dough into the bowl, cover with a damp tea towel or cling film and allow to double in size. (Roughly 1 hour)
9. Once dough has doubled in volume, divide it into 4 and shape into balls.
10. Stretch each dough ball into your pizza shape and place on a floured pizza tray for immediate use.

If not being used straight away (within 2 hours), it is best stored in the fridge/freezer to prevent the dough over-curing and going sour.
